## PROFESSIONAL PROFILE

Full Stack Developer with 2+ years of professional experience, self-taught since middle school out of a genuine passion for programming. Builds production-ready web applications using React.js, Next.js, Node.js, and PostgreSQL. Delivered live SaaS platforms and company profile websites actively used by real clients. Integrates AI tools (GitHub Copilot, Google Antigravity, 9Router) into development workflow to accelerate delivery cycles. Google AI Professional certified (Coursera, 2026) and capable of working independently end-to-end from UI to database.

| Tools    | Git, GitHub, Vercel, CI/CD, GitHub Copilot, Google Antigravity, 9Router        |

## WORK EXPERIENCE

### Web Developer · CiptaInterior / CKS Group

2024 – 2026 | ~6 hrs/day including during final year of high school | Bekasi, Indonesia

- Built an internal admin dashboard that reduced content update time by ~80%, replacing a fully manual process — adopted and used daily by the entire internal team.
- Developed a responsive company profile website (PHP, MySQL, JS) maintaining 99%+ uptime with consistent sub-3s load times across all pages.
- Designed a MySQL database schema for dynamic content management: gallery, portfolio, and company services.

### Backend & Database Engineer (Contract) · SA-MP Relative Roleplay

2022 – 2024 | Remote

- Managed and optimized a MySQL database serving 100+ concurrent users, ensuring data integrity and minimal downtime.
- Built automated backup pipelines and disaster recovery systems to prevent player data loss from server crashes.

## FEATURED PROJECTS

### Brew Ops — Coffee Shop Management SaaS → [live demo](#)

Next.js · Node.js · PostgreSQL · Supabase · Tailwind CSS

- End-to-end SaaS platform: real-time inventory tracking, employee attendance, sales reporting, and multi-role authentication (JWT + RBAC).
- Interactive analytics dashboard with automated low-stock notifications for operational monitoring.

### Tukang Express — Home Services Booking Platform → [live demo](#)

Next.js · React · TypeScript · Tailwind CSS · Node.js · PostgreSQL

- Built an end-to-end booking platform for home repair services with order management, scheduling, and a digital wallet system for service providers.
- Implemented a full SOP-compliant booking flow — from client request, worker assignment, to job completion confirmation.

## EDUCATION & CERTIFICATIONS

### SMA Negeri 1 Tarumajaya · Science

2022 – 2025 | Bekasi, West Java

Google AI Professional Certificate · Google / Coursera · 2026  
AI-Assisted Dev with GitHub Copilot · Microsoft · 2025  
Intermediate Problem Solving · HackerRank · 2024
